

# Better together

Discover how LibreOffice and The Document Foundation are helping other open source projects...

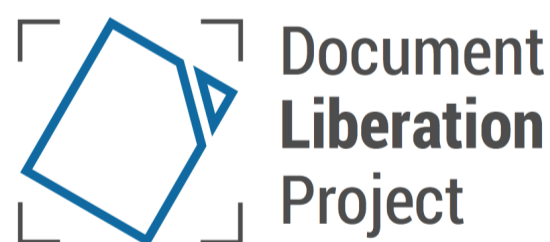

Thanks to donations, The Document Foundation (TDF) funded translation memory, concordance and performance improvements in Pootle

For Askbot, TDF funded per-language related questions, better facilities to deal with duplicate questions, and karma per localisation

A LibreOffice developer is a Gerrit Code Review maintainer, and has made many improvements to the software

Some LibreOffice developers also work on the Document Liberation Project (DLP), helping to free users from vendor lock-in

## And there's more...

- » A LibreOffice developer maintains CppUnit, which is used for C++ tests
- » Hunspell has been improved to meet needs of LibreOffice developers
- » Various public APIs have been added to PDFium to allow unit testing of LibreOffice's PDF export
- » XMLSec has been improved with OOXML signing and verification features
