

Tender for an Infrastructure and System Administrator (#201606-01)

The Document Foundation (TDF), the charitable entity behind the world's leading free office suite LibreOffice, seeks a

Infrastructure and System Administrator

to start work as soon as possible. The role is scheduled for 40 hours a week. The work time is flexible and work happens from the applicant's home office, which can be located anywhere in the world. The tools we make use of include:

- » Nginx and Apache
- » Postfix, Dovecot, SpamAssassin, amavisd, ClamAV
- » Gitlab and Gitlab CI
- » Gerrit, Bugzilla, Jenkins
- » AskBot, ownCloud, MediaWiki, Etherpad, Piwik

Skills we seek include:

- » experience in administrating and maintaining a 24/7 production system
- » a good and pro-active communicator
- » sensible towards data privacy-related topics
- » ability to act quickly on critical security updates
- » expertise with DNS, SSL certificates and domain registration

Speaking and writing English fluently is a mandatory requirement. TDF welcomes applications from all suitably qualified persons regardless of their race, sex, disability, religion/belief, sexual orientation or age.

Want to apply?

See <http://tinyurl.com/z2mtbmr> for the full job description.
Deadline for applications is 15 August 2016.
