

Release Engineering - Task #1403

QA and bughunting

2015-08-18 12:22 - Florian Effenberger

Status:	In Progress	Start date:	
Priority:	Normal	Due date:	
Assignee:	Xisco Fauli Tarazona	% Done:	0%
Category:			
Target version:	Recurring		
Description			
We regularly do QA and bughunting. This includes:			
<ul style="list-style-type: none">• stress testing LibreOffice development builds and pre-releases (alpha, beta, RCs) on multiple platforms, x86 and x64 architecture, including Android viewer, Android Remote and iOS Remote• confirming bugs and fixes, with bisecting when necessary• triaging unconfirmed bugs on master• running test builds/daily builds/snapshots ("master") to try to find regressions early in release cycles• keeping a continuous overview and reporting on the state and progress of LibreOffice QA as seen on its bug trackers, mailing lists, and other communication channels (e.g. IRC)			
To make the whole process scale well, keep in mind the following best practice:			
<ol style="list-style-type: none">1. Prioritizing (do not waste too much time on this)<ol style="list-style-type: none">1. go through bugs with status NEW in reverse chronological order (to catch recently reported issues first)2. quickly skim title and comments (give a cursory glance!)3. then decide on the priority, identifying crashes, data loss etc.4. add a quick comment about the change2. Tagging (without the need to triage fully)<ol style="list-style-type: none">1. Identify areas where tagging is missing (e.g. regressions need bisectRequests on them unless it is specifically requested to not have that)3. Documentation<ol style="list-style-type: none">1. Updating documentation as needed pertaining to QA related tools and recommended "best practices"4. Onboarding of volunteers<ol style="list-style-type: none">1. Regularly reach out to different channels to grow the team2. Document what was done, what works, set goals (e.g. number of new volunteers per month)3. Use social media, triaging (leaving a comment with an invitation to join), mailing lists (reaching out on other mailing lists)4. NB: Recruitment through in person events should be the exception, and we should frequent events where concrete new members are gained more often			

History

#1 - 2015-08-18 12:22 - Florian Effenberger

- Project changed from Infrastructure to Release Engineering

#2 - 2015-08-31 13:39 - Florian Effenberger

- Description updated

#3 - 2015-12-16 13:59 - Florian Effenberger

- Assignee changed from Robinson Tryon to Sophie Gautier

#4 - 2016-02-22 15:05 - Florian Effenberger

That's something I'd like to hand over to the upcoming QA role primarily, so let's revisit this when they are onboard

#5 - 2016-09-01 08:40 - Florian Effenberger

- Assignee changed from Sophie Gautier to Xisco Fauli Tarazona

#6 - 2016-09-01 08:59 - Sophie Gautier

I'm adding the link to the organization page I did on the wiki:

https://wiki.documentfoundation.org/BugHunting_Organization

#7 - 2017-08-16 12:50 - Xisco Fauli Tarazona
