please also add

w.tdf.io and redirect it to wiki.documentfoundation.org

Merci.

There's no need for immediate completion of this ticket, but I propose to ask during the next infra call and also on projects@ and website@ for proposals, so we have them collected and can proceed from there

#3 - 2016-03-04 14:48 - Alexander Werner

is on the agenda for the next call

#4 - 2016-03-21 18:50 - Christian Lohmaier

Suggestions/Ideas:

g → gerrit.libreoffice.org

j and/or c → jenkins.libreoffice.org / ci.libreoffice.org

m → moztrap.libreoffice.org

o → opengrok.libreoffice.org

p → translations.documentfoundaiton.org (pootle, t conflicts with tinderbox)

t → tinderbox.libreoffice.org

future:

d → dashboard.libreoffice.org

s → status.libreoffice.org

but is it really advisable to shorten it to that extent? i.e. wiki.tdf.io is not so much more typing than w.tdf.io, and it avoids collisions like a.tdf.io → ask.libreoffice.org, but could also be api.libreoffice.org

#5 - 2016-04-05 12:02 - Florian Effenberger

- Status changed from New to In Progress

Mail sent out by Alex in the meantime

#6 - 2016-07-20 07:56 - Florian Effenberger

- Target version changed from Pool to Qlater

Shifting to later due to the infra changes

#7 - 2016-11-09 13:08 - Florian Effenberger

- Assignee changed from Alexander Werner to Guilhem Moulin

re-assigning to Guilhem in order to clean up Redmine queues
nothing concrete to do at the moment

#8 - 2017-05-10 15:50 - Florian Effenberger

I haven't seen any discussion nor requests on this in the last months
I would release this ticket "into the wild" so anyone who has an interest in it can take care of it
If you object and your heart is on this one, Guilhem, let me know :-)

#9 - 2017-05-10 17:05 - Guilhem Moulin

No objection :-)

#10 - 2017-07-18 11:10 - Florian Effenberger

- Assignee deleted (Guilhem Moulin)

- Target version deleted (Qlater)
