## libreoffice.org banner improvements

### Description

When entering libreoffice.org the "Get it now" banner appears.

You can only get to the homepage when you read that banner and click "To the Homepage".

There should be

- a close (X) button to close that banner
- a click anywhere on the homepage around that banner should also close that banner

Additionally, a cookie should be set such that this banner only appears once for each new user.

Recurring users probably don't want to download LibreOffice each time they visit the site.

### History

**#1 - 2016-11-07 13:58 - Florian Effenberger**

The banner should have been removed in the meantime - can you confirm?

**#2 - 2017-01-22 16:40 - Christian Lohmaier**

- Category set to Webserver
- Assignee set to Christian Lohmaier
- Target version set to Q1/2017
- Estimated time set to 2:00 h
- Tags EasyHack added

no banner at the moment, but will take it as improvement for next iteration of the jumpage styles banner. Not sure about the close button itself, rather taking that clicking anywhere besides the banner should not pass through, but dismiss the banner.

Not sure I want to go the route with cookies...

Anyway, "accepting" the ticket.

Also good opportunity for Jean to try his hands on the testing VM.

**#3 - 2017-02-10 17:49 - Jean Spiteri**

- Assignee changed from Christian Lohmaier to Jean Spiteri

As soon as I get access to the testing VM, I'm ready to check it out.

**#4 - 2017-02-10 20:42 - Florian Effenberger**

As soon as I get access to the testing VM, I'm ready to check it out.

IMHO Cloph reached out to you on this already and/or you should have access. If not, can you mail him and Cc me?

**#5 - 2017-02-13 16:37 - Jean Spiteri**

I had already informed Cloph about the problem. Anyway, I've sent you an email too Florian some hours ago. In brief, I have a problem with the key so I thought I would generate a new one to try and fix the problem.
#6 - 2017-06-22 14:15 - Jean Spiteri
- Category changed from Webserver to SilverStripe

#7 - 2017-06-23 17:19 - Jean Spiteri
Is this done using any particular module? Or is it done from scratch? I have tried searching for signs of some module but haven't seen any so I'm assuming that it is done from scratch but I don't want to cause any problems so a clarification would be quite helpful.

#8 - 2017-06-23 18:12 - Jean Spiteri
About the cookie thing, maybe a solution could be that of saving a cookie for that session only? So a user closes the banner once per session.

#9 - 2017-07-13 16:55 - Jean Spiteri
This can be removed from the 'Team - Q1 2017' version. However, I don't have the permission to do it.

#10 - 2017-07-13 18:44 - Florian Effenberger
- Target version deleted (Q1/2017)

#11 - 2018-01-11 14:04 - Florian Effenberger
In your mail, you write

Can someone with knowledge of SilverStripe comment on this issue? That way, there'll be better guidance on what needs to be done.

Actually I'm a bit lost on what needs doing, I don't get it from the ticket. :-) Maybe you can let us know more details on what you need?

#12 - 2018-02-07 17:35 - Jean Spiteri
I have two questions about this issue.

1. How is the banner handled? I meant is it added through a module or HTML code written by someone directly on the server?

2. If the user closes the banner, should there be a cookie that stops the banner from appearing again? What lifetime should such cookie have (session or long-term)?

I would appreciate it if someone with more experience comments on these two questions.

#13 - 2018-02-08 08:37 - Florian Effenberger

I would appreciate it if someone with more experience comments on these two questions.

Not sure if people see this ticket - otherwise feel free to ask on website :-)

#14 - 2018-08-13 15:25 - Jean Spiteri
I've already asked on the website mailing list but I got no reply for that. Also, I think this needs to be reconsidered to decide whether the banner will be re-used another time or not.

#15 - 2021-06-03 22:23 - Jean Spiteri
It seems like the banner is not being used. Can this be confirmed? If yes this can probably be closed.

#16 - 2021-06-04 06:40 - Samuel Mehrbrodt
See comment 2 from cloph:

no banner at the moment, but will take it as improvement for next iteration of the jumppage styles banner.
