Description	
Currently there's a draft Awards page on the LO website that's rather old (no updates since 2015). I will search for more recent awards and testimonials from articles, and update the page accordingly.

Making a note that we should add a sentence to state that we will not publish ALL awards and reviews, otherwise we may end up being bombarded by requests to link back to sites that are just seeking free publicity.

I propose to shift this to Q4
Other tasks are more important this quarter IMHO

- Target version changed from Q3/2017 to Q4/2017

No updates nor request for quite a while, so I propose to remove that from your pile
I don't think it's super important, and we might just keep the ticket open for anyone who wants to work on it
I'd rather spend time on printable collaterals and other things that we can hand out on events, in schools etc
