Description

Hello.

The system requirements on the download page are still Windows Vista / macOS 10.10, so please update them.

- https://ja.libreoffice.org/download/download/

  オペレーティング・システム

  LibreOffice 6.4.2は次のオペレーティング・システム/アーキテクチャーで利用できます。

  - Linux x64 (deb)
  - Linux x64 (rpm)
  - macOS x86_64 (10.10 または以降が必須) <- this
  - Windows
  - Windows x86_64 (Vista または以降が必須) <- this

- Status changed from New to Resolved

Fixed Windows → 7 (for all langauges). Not 100% sure what you mean with macOS is mistake (I assume you meant listing it in the initial description as needing a fix was a mistake, so setting it to resolved)
