Lines don’t wrap correctly on AskLibO

Since recently, lines in questions, answers and comments are not wrapped by word boundaries on AskLibO anymore, but break in the middle of a word. See e.g. https://ask.libreoffice.org/en/question/241343, which title looks for me like

Why are comments on Ask LibreOffice not wrapped correctly?

i.e., first four characters of "wrapped" are on first line, and the rest on the second.
Status changed from New to Closed
