Target version:	Q1/2021		
Description			
When opening an extension, the web title remain the same: "Extensions > Extensions". This would turns to be a confusion when we open multiple different extension pages in a web browser.			
Please change them so it follows the extension name, e.g: "English Spell Checker - LibreOffice Extensions & Templates"			
Moreover, the homepage title should also reflects this site content: "LibreOffice Extensions and Templates" or "LibreOffice Extensions and Templates Repository"
