Description

Some ideas:

- Block user
- Batch actions (right now every single comment has to be clicked and spammed)
- Don't allow URLs in comments
- Blacklist (eg. Torrent)

History

#1 - 2020-08-02 12:37 - Heiko Tietze
- Assignee set to Christian Lohmaier
- Priority changed from Normal to Urgent

Blocking users and/or deleting all comments is badly missing.

#2 - 2020-11-10 15:07 - Heiko Tietze

For example we may block hyperlinks.

#3 - 2020-11-25 11:05 - Christian Lohmaier
- Status changed from Feedback to In Progress
- Target version set to Q4/2021

#4 - 2020-11-26 08:14 - Christian Lohmaier

See also rdm#3237. If we allow comments only on extensions with a maintainer, spam would be tagged more quickly.

#5 - 2020-12-16 11:41 - Florian Effenberger
- Target version changed from Q4/2021 to Q4/2020

#6 - 2021-01-17 21:52 - Christian Lohmaier
- Target version changed from Q4/2020 to Q1/2021

#7 - 2021-02-09 22:20 - Christian Lohmaier
- Priority changed from Urgent to Normal

I guess with comments restricted to logged-in users, the prio can be lowered to normal

#8 - 2021-02-10 09:23 - Heiko Tietze
- Status changed from In Progress to Resolved

I wonder if we can close the ticket. Requiring registration has the drawback than commenting is less simple but it is obviously very effective. Don't see a way to improve the one without affecting the other.

#9 - 2021-02-15 11:29 - Florian Effenberger
- Status changed from Resolved to Closed

Closing this one then - let's re-open please if the problem becomes prominent again
