Status summary: produce text for E-mail vote

Description
Generating a proposal for further handling of the outrunning TM licenses End of September, streamlining the granting and signing process. The general TM license issue with LOOL ++ will be covered first from the marketing team, so the priority of this ticket is to clarify and propose how to handle these concrete outrunning licences. Although it should be in coordination with the marketing team, not to propose something which is not aligned with further ideas of the marketing plan.
Subgroup who have volunteered to bring such a proposal in the board meeting of the 14th of August 2020 was: Paolo, Cor.

History
#1 - 2020-09-04 13:20 - Stephan Ficht
- Status summary set to proposal to be generated by subgroup (Paolo, Cor)
updated summary status

#2 - 2020-09-11 11:16 - Florian Effenberger
