Description Why does Twitter's "LibreOffice tip of the day" change tweet time? LibreOffice is a global project. I think you need to tweet in UTC, not your localtime in daylight savings time. https://twitter.com/libreoffice/status/1375764609806794752 Tweet time: 2021/3/27 11:00 UTC https://twitter.com/libreoffice/status/1376111841924018176 Tweet time: 2021/3/28 10:00 UTC
