Cloph, can you give some quick feedback whether we should continue doing it that way? I see a lot of RCs in Bugzilla and am not sure what is the preferred way of working - fine for me to leave the RCs in, whatever you think is best

#11 - 2016-03-04 12:56 - Florian Effenberger
Cloph to raise this during the next QA meeting

Cloph, is this (removal of old LibO versions from BZ in regular intervals) still a recent task that needs doing?

#14 - 2016-11-23 13:58 - Florian Effenberger
- Assignee changed from Christian Lohmaier to Xisco Fauli Tarazona

Adding this to Xisco's pile to decide what's best and whether/at which intervall to run this

Xisco, is this something you can/will handle, or shall we shift it to Guilhem/Cloph?
Not sure what steps are involved, but would like to know 1. if we need to do this and 2. who handles it - thanks ;-)

Yes, I take care of it. Next cleanup will take place in April 2017, 6 months after 5.1's EOL: https://wiki.documentfoundation.org/ReleasePlan/5.1#End_of_Life

Was this done?
Yes, it's done.
When would be the next cleanup then?
It will be 6 months after the 5.2 EOL, in mid November 2017.
I'd like to turn this into a recurring ticket with some date attached ;-)

Due time was incorrect. 6.4's EOF was on November 30, 2020 <https://wiki.documentfoundation.org/ReleasePlan/6.4>, thus the due time is 30/05/2021
